

The Moorings Group, LLC is registered with the Securities and Exchange Commission as an investment adviser and, as such, we provide advisory services rather than brokerage services. Brokerage and investment advisory services and fees differ and it is important for you, our client, to understand the differences. Additionally, free and simple tools are available to research firms and financial professionals at [Investor.gov/CRS](https://www.investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisers, and investing. This document is a summary of the services and fees we offer to “retail” investors, which are natural persons who seek or receive services primarily for personal, family, or household purposes.

What investment services and advice can you provide me?

We offer the following investment advisory services to retail investors: **Portfolio Management Services to direct and sub-advisory clients and also as a Portfolio Manager to Wrap Fee Program(s)**. Detailed information regarding our services, fees and other disclosures can be found in our Form ADV Part 2A Brochure, Items 4, 7, and 8 by clicking this link

Account Monitoring: If you open an investment account with our firm, as part of our standard service we will monitor your investments on a daily basis.

Investment Authority: We manage investment accounts on a *discretionary* basis whereby **we will decide** which investments to buy or sell for your account. You may limit our discretionary authority (for example, limiting the types of securities that can be purchased or sold for your account) by providing our firm with your restrictions and guidelines in writing.

Investment Offerings: We offer advice on the following types of investments or products: equity securities, corporate debt securities (other than commercial paper), certificates of deposit, municipal securities, United States government securities, money market funds and exchange traded funds (ETFs); however, we specialize in the fixed income asset class with a primary focus on municipals.

Account Minimums and Requirements: In general, we require a minimum account size of \$500,000 to open and maintain an advisory account, which may be waived in our discretion.

Key Questions to Ask Your Financial Professional

- **Given my financial situation, should I choose an investment advisory service? Why or Why Not?**
- **How will you choose investments to recommend to me?**
- **What is your relevant experience, including your licenses, education and other qualifications?**
- **What do these qualifications mean?**

What fees will I pay?

The following summarizes the principal fees and costs associated with engaging our firm for investment advisory services. For detailed information, refer to our Form ADV Part 2A Brochure, Items 5 and 6 by clicking this link https://files.adviserinfo.sec.gov/IAPD/Content/Common/crd_iapd_Brochure.aspx?BRCHR_VRSN_ID=630944.

- **Asset Based Fees** - Payable quarterly in arrears. Since the fees we receive are asset-based (i.e. based on the value of your account), we have an incentive to increase your account value which creates a conflict;
- **Wrap Program Fees** - Payable quarterly in advance or arrears, depending on the policy of the wrap program sponsor. Asset-based fees associated with a wrap fee program generally include most transaction costs and fees to a broker-dealer or bank that has custody of the assets; therefore, the asset-based fee is higher than a typical asset-based advisory fee.
- **Other Advisory Fees** - If applicable, you will pay advisory fees charged by the primary adviser;
- **Additional common fees and/or expenses such as:**
 - Custodian fees;
 - Account maintenance fees;
 - Fees related to mutual funds and exchange-traded funds; and
 - Transaction charges when purchasing or selling securities outside of a wrap account.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Key Questions to Ask Your Financial Professional

- **Help me understand how these fees and costs might affect my investments.**
- **If I give you \$100,000 to invest, how much will go to fees and costs, and how much will be invested for me?**

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

- **Third-Party Payments:** When acting in a sub-advisory capacity where the primary advisory is responsible for billing the client's fees and when acting as an investment manager in a wrap program, we are compensated by a portion of the fee/wrap-fee charged by the primary adviser or wrap program sponsor.
- Our relationship with Charles Schwab & Co., Inc. ("Schwab") requires that we maintain a certain level of assets with Schwab. This creates an incentive to recommend that you establish and maintain your account with Schwab, based on our interest in receiving Schwab's services that benefit our business, rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions.
